f.) The word "including" means "including without limitation", "for example" ("e.g.", "for e.g.") means "for example without limitation". The word "may" means "has the right, but not the obligation, to".

1.2. Singular of the terms includes plural and plural includes singular.

### 2. WHO CAN USE BOOSTEROID

2.1. Boosteroid is provided solely for lawful purposes and use. It's made to be accessible to any private individual with an Internet connection provided that other eligibility criteria set here are met. However, we do not warrant that Boosteroid is appropriate or available for use in any particular

jurisdiction. If you choose to use Boosteroid, you do so on your own initiative at your own risk and are responsible for complying with local laws.

2.2. You can use Boosteroid only for personal non-commercial and non-profit use.

2.3. We may limit the availability of Boosteroid in whole or in part, block or deny access to any person, area or jurisdiction at any time and without notice.

2.4. Accessing Boosteroid is prohibited from jurisdictions where it or its content is illegal.

2.5. To use Boosteroid, you need to have access to the Internet. Boosteroid will not work properly if you do not have an Internet connection or your connection is poor, unstable or faulty.

2.6. Boosteroid is evolving. We may release updates to Boosteroid without notice. You may need to update third-party software (e.g. browser) from time to time in order to use Boosteroid.

2.7. Boosteroid is available only for users who have reached legal age in their jurisdiction or receive proper parental consent and guidance while using Boosteroid. In any case Boosteroid is not designed to be available for minors under 14 y.o., regardless of the parental consent and guidance they may receive.

2.8. Users shall comply with age restrictions applicable to games available through Boosteroid. Click on any game and open its description to see the badge with the applicable age restriction.

### 3. GAMES AVAILABLE THROUGH BOOSTEROID

3.1. We are a cloud provider, not a content provider, so **on Boosteroid you can only run the games that you already own**. You will not be able to run a game on Boosteroid if you haven't bought it from the official distributor. When you run a game on Boosteroid you must comply with all applicable third-party rules related to the use of this game.

E.g. you may be obliged to buy a video game on a publisher's or retailer's website and create an account on a gaming platform like GoG.com, Epic, Steam, Wargaming.net, etc.

3.2. **Please check the list of video games available on Boosteroid before you buy the subscription.** Sorry, but we will not provide a refund if you claim it because a particular game is not available.

3.3. We do our best to update the games available on Boosteroid instantly after the update is released. However, sometimes it may take us some time, so we cannot guarantee that in each particular case you run the latest version of the game on Boosteroid.

3.5. Most games support cloud saves and if you exit the game properly (not just close your streaming session, but exit through the game menu) you'll have all your progress saved. If a game does not support cloud saves, we won't be able to save your progress and you will lose it when you terminate the gaming session.

3.6. We do not guarantee availability of any particular game on Boosteroid. Games that are available now may become unavailable at any time without notice.

3.7. You may buy a game from different distributors and, thus, launch it via different launchers. E.g. the same game can have 2 versions: a Steam-version and an Epic-version. Both versions could be available through Boosteroid. Or only one. So the version you own may not be available through Boosteroid. Please check the available versions before you subscribe, if this is important for you. "Steam" and "Epic" are just examples.

### 4. PERFORMANCE AND CONFORMITY OF BOOSTEROID

4.1. We can ensure the best experience of using Boosteroid only if our servers are located close to you. **We never guarantee that Boosteroid works well in your area.**

4.1.1. Boosteroid is based on emerging technologies with many issues still to be improved. You acknowledge that the problems in its operation can occur beyond our reasonable control and may require an underdetermined period of time for improvement. **You agree not to raise non-conformity or similar claims if you are not satisfied with Boosteroid performance or if its operation is faulty or differs from advertising and other related materials. This is because Boosteroid may have different functionality and operate more or less seamlessly depending on user location, user digital environment, network conditions, etc.** Please note that your digital environment (hardware, software, network) and your use of Boosteroid should comply with the requirements set forth in this Section 4.

4.2. Boosteroid may be unavailable in full or in part for an indefinite period of time in certain areas.

4.3. **We inform you that Boosteroid is sensitive to your digital environment and its performance may vary depending on your hardware, software, and network.**

4.4. Below are general requirements to your digital environment:

- Operating system: 64-bit Windows 7 and later versions. 32-bit Windows are not supported.

For Mac - macOS 10.10 (OS X Yosemite) and later versions.

- Browser type: the latest versions of Google Chrome, Opera or Microsoft Edge. Run Boosteroid in the incognito mode to have a better performance. If there are issues in the Boosteroid's operation you can clear cookies. WebRTC should be enabled in browser settings.
- The latest NVIDIA, AMD, Intel drivers.
- At least 2,5 GHz processor.
- Graphics card with DirectX 9.0c and H.264 hardware decoding. If your graphic card does not support H.264 hardware decoding you are likely to experience high processor load and, thus, poor streaming image quality.
- At least 4 GB of running memory.
- Do not launch other apps, programs or processes, do not open other browser tabs.
- If you run Boosteroid on your laptop, do not connect it to TVs and other screens, monitors or displays through HDMI, USB or otherwise. Video output to other devices may result in worse performance.

The requirements to game controllers:

- Use computer mice and keyboard connected via USB. You can use wireless controllers but we hereby inform you that it may increase response time or jitter.
- Use Sony DualShock 4; Microsoft Xbox 360 (only wire connection) and Xbox One; Logitech Gamepad F310/F510/F710. You may use other gamepads, but we do not guarantee seamless operation.
- To reduce response time, use wire connection.

The requirements to Internet connection:

Online streaming automatically configures depending on your Internet connection. The quality of your Internet connection defines the quality of the image you observe on the screen and the latency you experience.

- FullHD/60 fps gaming requires at least 15 Mbps stable Internet connection available for the gaming session.
- The most efficient gaming experience is possible with at least 25 Mbps stable Internet connection available for the gaming session.
- Use a wired Internet connection (Ethernet) or a 5 GHz Wi-Fi router. Connect to the router directly via Ethernet cable. If you use a laptop or MacBook with no Ethernet port, use an Ethernet-adaptor that can be connected via USB Type 2.0/3.0, Type-C or Thunderbolt. Make sure your Internet channel is not overloaded and there are not many devices connected. With a 2.4 GHz Wi-Fi router you may have problems with Boosteroid performance.
- Ping to Boosteroid servers should not be more than 20 milliseconds. Otherwise you are likely to have poor gaming experience. Log in to your Boosteroid account and make a [speedtest](#) to check this.
- If you have an ADSL connection, we do not guarantee seamless experience with Boosteroid and you are likely to face issues with its operation.

4.5. If your hardware, software, network or any other part of your digital environment do not comply with these requirements, you may experience problems with Boosteroid operation and performance, such as big latency & response time, poor image quality, lagging, freezing, jitter, unexpected streaming termination, unavailability of the services, etc.

**4.6. You will not raise non-conformity or similar claims if Boosteroid operation is faulty or appears to be worse than announced by us if such lack of conformity arises out of your digital environment features.**

4.7. Boosteroid is available on smartphones. This functionality is **in the test mode and you acknowledge that you are informed of possible failures in its operation.** You agree not to file non-conformity or similar claims in case of poor performance of Boosteroid on smartphones.

The requirements to smartphones:

- 2 GB or more of running memory;
- Android 5.0. or later;
- Bluetooth or USB On-The-Go (OTG);
- the latest version of Google Chrome;
- H.264 hardware decoding.

The requirements to Apple smartphones:

- iPhone 7 or later;
- the latest version of Safari browser.

The requirements to gamepads:

The general requirement is a Bluetooth or OTG connection. The performance may vary from one gamepad to another. The following gamepads show the best compatibility with Boosteroid:

- Xbox One Bluetooth;
- Xbox 360 (only wire connection);
- Sony DualShock 4.

We also recommend using a gamepad clip.

4.8. Multiplayer and online gaming experience may be worse than a single player due to increased load on the network.

4.9. On the [Downloads](#) page of our website you can download BETA applications for Windows x64, Android (smartphone) and Android TV (for Smart TVs based on certified Android TV operating system). [Android/Android TV](#) apps are distributed for free on Google Play Market. All applications are in BETA, they are NOT OFFICIALLY RELEASED. You may experience issues with their operation and agree not to raise any non-conformity or similar claims with regard to your use of the applications.

It means they will RENEW AUTOMATICALLY when your current billing cycle ends if you do not cancel the subscription before the renewal date.** If you do not want to renew the subscription, you should unsubscribe by means available in your account before it expires. **If you do not do that, you will be automatically provided with the next subscription and no refund will be possible.**

10.5. The billing is carried out by a payment system and in case the payment system is not able to charge the price of your subscription renewal from your bank card (e.g. you don't have enough money on your bank account or your card is blocked) it will skip your payment and get back to it later. Payment systems may try to withdraw funds from you multiple times according to their internal procedures.

10.6. **Subscriptions.** Upon the registration and creation of your account, you may choose one of the available subscriptions.

**1-month subscription** - 9.89 EUR (50 RON for SelfPay)

other subscriptions may be (or have been) available.

Typically we pay all bank and payment system commission fees, as well as taxes applicable to the subscription. In this case you will be responsible for paying such fees.

10.6.1. Each subscription will activate immediately but not later than in one day upon your payment.

10.7. When your current subscription ends, you will still have access to your user account, but you will not be able to launch video games through Boosteroid.

**10.10. We provide no refunds.** You will not be able to get a refund of a purchased subscription as soon as it is activated. In some cases according to the applicable law you may still have the right to claim a refund. We will review such cases and refund your payments if we are required to do so.

10.11. You can purchase subscriptions using [SelfPay](#). You may select this payment method in your Boosteroid account. Then our system will generate a 13-number code that you should enter when making a cash/card payment via a SelfPay terminal. You will receive your subscription immediately upon your payment but in any case no later than in one day upon the payment. When making your payment via SelfPay terminal, please choose "Boosteroid" icon available on the terminal and follow further instructions. Check the nearest SelfPay terminal [here](#).

10.12. The 13-number code is valid for an unlimited period of time upon its generation and will expire at the time you enter it when making a payment via a SelfPay. We recommend using the code no later than 3 days after its generation. You can generate only one valid 13-number code. If you purchase any subscription using SelfPay and then purchase another subscription, your initial subscription will be terminated and the new one will be activated (subscriptions are not accumulative).

10.13. SelfPay is in charge of refund claims. If you want to claim a refund, contact [SelfPay support](#).

10.14. There is NO automatic subscription renewal for SelfPay. When your subscription expires, you may generate a new 13-number code and purchase the subscription again.

10.16. You are responsible for the security of your bank cards and payment instruments you use to make transactions on Boosteroid. **Refund claims based on the statements that someone has used your bank card without your permission will not be accepted, unless we receive an official notification from a relevant authority that the unauthorised use of your card was or is suspected to be fraud.**
